Subject: Re: DSI9301-A.pdf

Chris,

This looks good. Go ahead and release to customer. Please prepare the Design Review summarizing your's and Jason's investigation with the appropriate photographs as well as a reference copy of the DSI. Get Bill to sign it and put it in my Inbox. I will sign when I come to Hawkesbury in June.

An ECN should be generated with an action item to add 4 x AN5-13A bolts and a copy of this DSI to all kits in stock.

David

Can't find earlier dwg than rev.C, checked big dwgs too.

Rev.C of dwg calls up AN5-15A, the rev block says 'modification of AN bolts'

Rev.E of dwg changed to AN5-14A bolts

Couldn't find any documentation for reason of change.

-Chris
